DETAILED ACTION

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 and IDS forms of record. None of the references anticipate or make obvious, *inter alia*, forming a photoresist film on the entire surface of the exposed lower metal line, the via contact hole, and the remaining anti-reflection film; subjecting the photoresist film to an exposure and development process using an upper metal line mask to form a photoresist film pattern for defining an upper metal region, wherein the photoresist film pattern further fills a portion of the via contact hole to cover the exposed lower metal line; etching the anti-reflection film and the third interlayer insulating film using the photoresist film pattern as a mask to form the upper metal line region; removing the photoresist film pattern to expose the lower metal line; and after the photoresist film pattern is removed, forming an upper metal line contacting the lower metal line by filling the upper metal line region, as required by the present Claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
